GRISHMA METAL TECHNOLOGY

Grishma Metal Technology is a Mumbai based firm engaged in manufacturing of various high purity Molybdenum compounds since year 2000. We have our manufacturing location on the outskirts of the Mumbai metropolis for quick & easy access to transport infrastructure. Our aim is to deliver quality products. Each dispatch is subjected to extensive testing procedures for assuring quality products to our clients. We are committed to creating values and building relationship for our customers.

**We are specialized in producing:**

- Ammonium Molybdate
- Sodium Molybdate
- Molybdic Acid
- Molybdenum Trioxide
- Molybdenum Sulphide
- Potassium Molybdate
- Lithium Molybdate

**Applications**

- Water treatment chemicals
- Corrosion inhibitor
- Pigments
- Micronutrients
- Pharmaceuticals
- Laboratories
- Metal Treatment chemicals

We are specialised in producing high purity Molybdenum compounds tailored as per individual customer's specifications.

**Quality**

Our proprietary technologies used in processing Molybdenum Oxide into various Molybdenum compounds yields unmatched purity and quality. We precisely control the process to ensure Moly compounds meet our stringent purity requirements.

Our in-house laboratory is well equipped with qualified staff. Each dispatch is subjected to extensive testing procedures for assuring quality products to our customers.

**Timely delivery**

Our powerful team of administration ensures the timely delivery of the goods. Our unit is located on the outskirts of Mumbai Metropolis, for quick and easy access to transport infrastructure.
